Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use my tracfone to conduct a very small budding business. I cannot afford a "land" phone right now. Tracfone offers me the options that make my infrequent business calls (none out of state) affordable. Please reconsider this fee increase. You will be affecting most of the "little" people out there who cannot afford to commit to a contracted wireless plan. Thank you.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

John Mattson
